

The sweetest gift

These lollipops are a delicious way to celebrate the holidays. They're made with a special recipe that's perfect for the season. The lollipops are made with a special recipe that's perfect for the season. The lollipops are made with a special recipe that's perfect for the season.

Bringing up baby

We've had babies on the brain at **delicious.** since our food editor, Angela Boggiano, produced her beautiful son, Hunter. Angela swears by these Food Portioners from Brother Max, which let mums make their own baby food and store it in convenient portions. The pots click together and can be stored in the fridge or freezer. You can feed straight from the pots, or pop them out frozen using ingenious pressure buttons, then heat them up. They are microwave-, steriliser-, freezer- and dishwasher-safe, and you can stash them in your travel bag when you're out and about (£5.99 for a set of six; brothermax.com and nationwide stockists).
